A. KA107 - International Credit Mobility (ICM):

Erasmus+ extends beyond Europe, allowing for mobility from and to other parts of the world (between 33 Program and 84 Partner Countries). Program Countries are those countries participating fully in the Erasmus+ program. Turkey is one of the 33 Program Countries. Partner Countries cover the rest of the world outside the European Union.

In 2015, Erasmus+ opened up these opportunities to individuals and organisations from other parts of the world. Through the new "International Credit Mobility" action - ICM for short - European HEIs can now set up mobility agreements with partners from around the world, to send and receive students and staff.

B. Who can Apply?

For students:

Applicants must be registered at DIU as **full-degree undergraduate students** at the time of application. They must have completed at least one semester and have a valid GPA score. E. Selection Criteria

The selection of students must be fair, transparent, coherent and documented and shall be made available to all parties involved in the selection process. DIU shall take the necessary measures to prevent any conflict of interest with regard to persons who may be invited to take part in the selection bodies or process of students' selection. The **selection criteria** (e.g. the academic performance of the candidate, the previous mobility experiences, the motivation, etc.) shall be made public. For students from Partner Countries, the first criterion for selecting students will be academic merit, but with equivalent academic level, preference should be assigned to students from less advantaged socio-economic backgrounds (including refugees, asylum seekers and migrants).

Lower priority will be given to those who have already participated in mobility actions in the same study cycle under the LLP-Erasmus Programme, Erasmus Mundus Programme or Erasmus+ Programme. Erasmus+ encourages the participation of students and staff with special needs.

The students and staff selection will be made according to the table below.

Students Criteria:

%50 GPA + %50 Language score*

*Language exam has to be held by the Partner Universities or students have to hand in an exam score which is internationally valid.

Staff Criteria:

Criteria	Points
Contribution to the project (during application process)	+20
Staff with special needs	+10
Not taking part in the KA107 Mobility before	+20
Administrative staff (for Staff Training Mobility)	+10
Unit coordinator of the program	+10
Taking part in the KA107 Mobility before	-20

In addition;

- Applicants have to hand in a hand in an exam score which is internationally valid. The %40 of the exam score will be added in to the total points.
- Applicants will get extra points according to the year that they have been working in DIU/KBU.

Staff Criteria

Staff taking part in a higher education mobility project must be selected by their sending HEI in a fair and transparent way. Prior to their departure, they must have agreed on a mobility program with the sending and receiving institutions.

The compulsory Mobility Agreement between the sending and receiving HEIs /organisations for the purpose of teaching or receiving training should stipulate the activities to be undertaken by the staff member. This agreement should be reached after discussions between the two HEIs / organisations, taking into account the institutional requirements / strategy, academic rationale, foreseen outcomes and the staff member's competences.

Recognising credit mobility and enhancing quality

Mobility periods must be recognised by both HEIs as stipulated in the inter-institutional agreement and in the **Learning Agreement**. The receiving institution provides the sending institution and the student with a **Transcript of Records** (or equivalent document) within a reasonably short period of time (stipulated between the two institutions) after the issuing of the student's results at the receiving institution. Upon successful completion of the set of educational components included in the Learning Agreement and confirmed by the Transcript of Records sent by the receiving institution and made available to the student, the sending institution should fully recognise the agreed number of credits. It must then transfer them into the student's programme and use them to satisfy the qualification requirements. The sending institution should specify clearly how the educational components taken abroad have been integrated into the home degree programme (when applicable, grades are converted). In case the students have not completed them successfully at the receiving institution, institutional procedures should be defined for assessment of educational components. Such procedures should be communicated to students before the beginning of the mobility.
